

HealthWay Compact

PROFESSIONAL DFS
AIR PURIFICATION
SYSTEM

The Compact air purifier features our advanced, award-winning, and proprietary DFS technology. The simple, versatile design complements any commercial, office or residential space. It is ultra-quiet and has been specially designed to deal with ultrafine particles, gas, and odor adsorption. Recommended for spaces 500 sq. feet and below.

HealthWay Compact

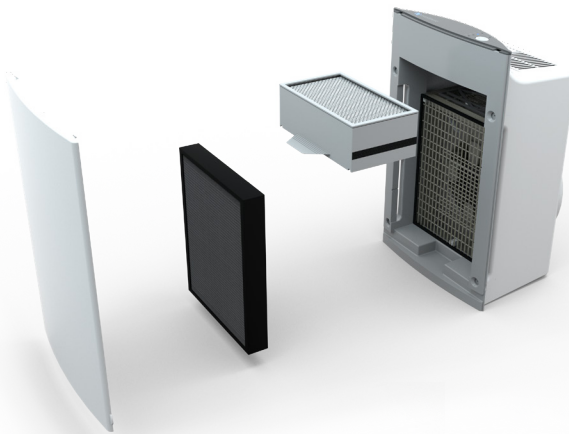

Professional DFS Air Purification System

Disinfecting Filtration System (DFS) is our proprietary electronically enhanced filtration technology.

Features

- Particle efficiency - 99.9% at 0.007 micron
- 6-stage pre-filter with VOC adsorption for removal of harmful gases and odors
- Proprietary DFS technology efficiently removes airborne mold, bacteria, and viruses passing through the system
- Each machine is independently tested
- Substantial reduction in airborne microorganisms, chemicals, offensive gases, odors, and smoke
- Less dust and dander, pollen, dust mite waste, bacteria, mold, fungi and viruses
- Compact, ultra slim design
- Easy to setup and maintain
- A clean and fresh smelling environment
- Wall Mount Optional
- Coverage up to 500 sq/ft

Energy Consumption

Blower Speed	Energy Usage (Watts)	Air Flow (cfm)	dBA
Low	9	22	34
Med	15	49	45
High	25	79	53
Turbo	61	150	63

DIMENSIONS

Height - 22.23" (564.6 mm)

Width - 15.15" (384.8 mm)

Depth - 11.22" (285 mm)

WEIGHT

17lbs (8kg)

UL 867 Certified

ITEM	PART #
Compact	10600-9W6S
Pre-Filter	50213
Main Filter	60209 -V1
