

Innovation is in the air.

HealthWay Ultrafine 468

# HealthWay Ultrafine 468 Professional Air Purification System

The Ultrafine 468 from HealthWay was designed to neutralize particles, volatile organic compounds, and microorganisms, leaving nothing behind but clean, fresh air. It's the only air cleaner in the world with this capability. How did our engineers pack so much performance into such a customer-friendly package? By streamlining the design and making the most of every inch. It's something we call total system performance.

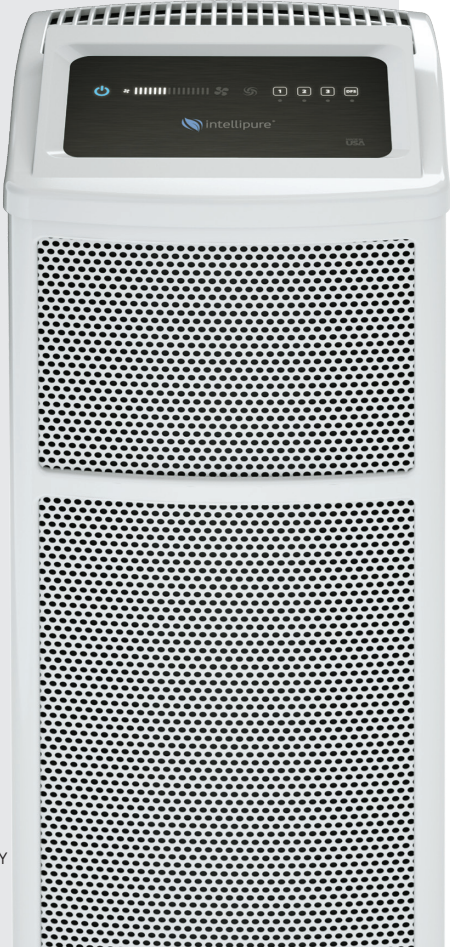

## SPECIFICATIONS

Protects up to 1,200 sq/ft

Weight: 34 lbs

Dimensions: 13.4 × 10.6 × 30.0

in Color: Black, White

Our products are tested for total system efficiency.

Removes 99.99% of harmful viruses, fungi, molds, and, bacteria down to 0.007 micron in size.

Currently utilized in hospitals, medical clean rooms, government buildings, schools, universities, and military applications.

## TOTAL SYSTEM PERFORMANCE

- Highest-quality EC motor results in 50% less operating cost
- Incredibly energy efficient, using only 5 watts per hour when on low
- The quietest air purifier of it's kind, with highest CFM per decibel level of noise in it's category
- Less dense media filters span the full height of the machine for maximum airflow and filtration power
- Lightweight, compact, portable construction
- Designed for quick and easy filter maintenance and change out
- Sleek design that looks great in every room environment

Area (sq/ft)	Ceiling Ht (ft)	Air Exchange (hr)	Turbo Setting dB(a)	Low Setting dB(a)
1125	8	2	59.2	17.9
700	8	3	59.2	17.9
350	8	6	59.2	17.9
